

Ceiling Incandescent Pendant

41073
INSTALLATION SHEET

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-855-855-8926

- 1.** Remove the fixture from its original packaging. Next, remove the mounting plate (1c) from within the canopy (2a) by un-threading the two nuts (2b). Secure the mounting plate (1c) to the junction box (1a) with screws (1e) provided in the hardware package.
- 2.** Before you mount the canopy to the mounting plate select the desired length you wish the pendant to hang. To shorten or lengthen the pendant just remove or add conduit sections (2c) by threading clockwise for adding and counter clockwise for removing. Next, feed the lead wires (2d) up through the conduit and into the canopy (2a).
- 3.** Once this is complete, insert the lamp (3b) and place the diffuser (3c) into the fixture. Slightly bend the diffuser (3c) and carefully insert it into the diffuser.
- 4.** You are now ready to mount the canopy. First, connect all wires correctly black to black "L", white to white "N" and the ground wire with provided marrettes (1b) from the hardware package. Align the threaded studs (1d) with the holes on the surface of the canopy (2a). Next, push the canopy (2a) to the mounting plate (1c) thread on the two nuts (2b) on to the threaded studs (1d). This will secure the canopy to the mounting plate.
- 5.** You have now completed the installation of your fixture, enjoy.
