

85"
(2159mm)

The diagram shows a technical drawing of a pendant light fixture. At the top is a rectangular canopy. A vertical stem descends from the canopy, featuring a break symbol (two parallel diagonal lines) to indicate that the stem is longer than shown. The stem terminates in a mounting bracket that holds a rectangular light fixture. The light fixture has a rounded bottom and a vertical slot. The drawing includes three dimension lines: a vertical line on the left indicating the total height from the canopy to the bottom of the light fixture, a vertical line on the right indicating the height of the light fixture itself, and a horizontal line at the bottom indicating the width of the light fixture.
