# LED Chandelier

START FROM HERE

• Make sure power is completely off at the fuse box.
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area.
• Wear gloves at all times during this installation.
• Read instructions carefully before you start assembly.
• Keep this instruction sheet for future reference.

Technical Support: 1-855-855-8926

Please Note:
• For dimming, a TRIAC or an ELV type of dimmer is required.

1. Remove the fixture from its original packaging. Next, remove the mounting plate **(1c)** within the canopy **(2a)** by removing the screws **(2b).** Secure the mounting plate **(1c)** to the electical junction box **(1a)** with screws **(1d).** Connect all wires **(1b)** around the crossbar **(1c)** correctly black to black "L", white to white "N" and the ground wire with provided marrettes from the hardware package. Secure the mounting plate **(1c)** to the junction box **(1a)** with screws **(1d)** provided in the hardware package. Make sure to reinforce the wood behind the drywall for extra support and use the woodscrews **(1e)** to secure the crossbar **(1c)** to the ceiling.

2. Before you mount the canopy to the mounting plate, select the desired length you would like the fixture to hang down from the ceiling. To set the fixture hanging height, simply push in the sleeve **(2c)**. Installer has the flexibility to adjust fixture height and posture by pushing or pulling wires individually. Release the sleeve **(2c)** and the wire will be held tightly in place.

3. You are now ready to mount the canopy to the mounting plate. Align the holes on the sides of canopy **(2a)** with the holes on the sides of mounting plate **(1c)**. Next, push the canopy **(2a)** to the mounting plate **(1c)** and use the screws **(2b)**. This will secure the canopy to the mounting plate.

4. You have now completed the installation of your fixture, enjoy.
