- 1.** Remove the canopy from it's original packaging.
Remove the mounting plate **(1c)** from within the canopy **(2a)** by removing the decorative nuts **(2b)**. Attach the mounting plate to the electrical junction box using the screws **(1e)** provided in the hardware package. Make sure to reinforce the wood behind the drywall and use the woodscrews and plastic anchors **(1f)** for extra support.
- 2.** Before you mount the canopy to the mounting plate select the desired length you wish the pendant to hang. Loosen the screws in each canopy nipple **(2c)** and push/pull the cable. Tighten the screw back to secure the cable in place
- 3.** You are now ready to mount the canopy **(2a)** to the mounting plate **(1c)**. First connect all wires correctly G ground to ground, N neutral wire (white to white), L live wire (black to black) with provided marettes **(1b)** from the hardware package. Align the hole in the canopy to the threaded stud screws **(1d)** hanging downward from the mounting plate. Push the canopy up towards the ceiling so the stud screws **(1d)** clears through the holes in the canopy **(2a)**.
