# LED Flush Mount

START FROM HERE

• Make sure power is completely off at the fuse box.
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area.
• Wear gloves at all times during this installation.
• Read instructions carefully before you start assembly.
• Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:
• All Kuzco LED fixtures come with pre-wired LED module(s).
• Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
• For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging and remove the mounting plate **(1c)** from within the hardware package. Attach the mounting plate **(1c)** to the electrical junction box **(1a)** on the ceiling using the two screws **(1e)** provided in the hardware package.

2. Attach the canopy to the mounting plate. First connect all wires correctly G ground to ground, N neutral wire (white to white), L live wire (black to black) with provided marettes **(1b)** from the hardware package. Align the top holes on the canopy **(2a)** to the screws **(1d)**. Push the canopy **(2a)** uptowards the mounting plate **(1c)** and turn clockwise to lock in place.

3. Install the glass **(2c)** onto the canopy **(2a)** by threading it in, turning clockwise until it is secured. Use the three screws provided in the hardware package to lock the glass to place.

4. You have now completed the installation of your fixture, enjoy.
