

LED Pendant

PD80736

INSTALLATION SHEET

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

- 1.** Remove the fixture from its original packaging. Remove the mounting plate (1c) from within the canopy (2a) by removing the screws (2b). Secure the mounting plate (1c) to the junction box (1a) with the screws (1d) provided in the hardware package.
- 2.** Before you mount the canopy to the mounting plate select the desired length you wish the pendant to hang. To shorten or lengthen the fixture just push in the canopy nipple (2c) and push/pull the wire to lengthen or shorten. Release to the nipple and this will secure the wire in place.
- 3.** You are now ready to mount the canopy (2a) to the mounting plate (1c). First connect all wires correctly G ground to ground, N neutral wire (white to white), L live wire (black to black) with provided marettes (1b) from the hardware package. Align the holes on the sides of the canopy (2a) to the flaps of the mounting plate (1c). Push the canopy up towards the ceiling and use the screws (2b) to secure the canopy to the mounting plate.
- 4.** You have now completed the installation of your fixture, enjoy.
