# LED Lamp Wall Sconce

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-855-855-8926

Please Note:
- All Kuzco LED fixture comes with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging. Remove the mounting plate **(1c)** from within the canopy **(2c)** and attach it to the electrical junction box **(1a)**, using the two screws **(2b)** provided in the hardware package. Remove all screws **(2d)** from both top and bottom cover plates this will free up the cover plates **(2f)**. Loosen knurl screws **(2j).**

2. Attach the canopy to mounting plate. First attach all wiring **(1b)** with the provided marrets (white to white "N", black to black "L", ground to ground "G"). Now align the screws **(2a)** with the canopy plate holes **(2c)** and secure with decorative nuts **(2i)** to the mounting plate **(1c)**. Once this is complete slide diffuser **(2h)** onto the fixture and secure by tightening knurl screws **(2j)**. Lastly, connect both cover plates **(2f)** with screws **(2d)** until secure.

3. You have now completed the installation of your fixture, please enjoy.
