## Bring the warmth of inside *outside*

The right combination of functionality and aesthetics of an Innova heater can transform any outdoor space into a welcoming and cozy area, providing you a lifestyle experience. Our heaters are exceptionally precise and versatile. Innova makes it easy for you to stay warm while enjoying your outdoor experiences.

The background of the entire image is a repeating pattern of Innova Energy bars. Each bar is white with a textured, woven appearance and features the 'Innova' logo and 'ENERGY' text at the top. The bars are arranged in a staggered, grid-like pattern across the entire orange background.

# Step Outside with Innova

“  
We are designers,  
entrepreneurs, strategists,  
and awkward dancers.”

Alyson Martin, Director of Marketing

### **Welcome to Innova Heating Co. – the newest member of the Eurofase family!**

For the past 30 plus years, contractors, architects, and designers have relied on Eurofase as their go-to brand for providing a diverse selection of high-quality, innovative products for both residential and commercial applications. Known for our aesthetic appeal, stellar performance, and long-lasting quality, the introduction of Innova Heating Co. has expanded our reach to now include patio heaters.

As a natural extension to Eurofase, Innova Heating Co. is the perfect addition to complete every outdoor space. We invite you to learn more about Innova Heating Co. products in this catalog, or by visiting us online.

# Take control of your outdoor living

The Universal Relay Control Box by Innova Heating Co. makes managing your comfort zone easier. It helps control multiple heaters and furthermore creates varied heat zones throughout your space. This control box is a highly recommended addition for residential and commercial spaces. Modify each area with precise temperature conditions easily and all in one place.

From timers and dimmers to a combination of both, Innova Heating Co.'s control box is a great addition to any heating project. With endless possibilities, it only makes sense to have the proper tools to control and regulate these functions for a streamlined experience.

Item No.	Description
EFURCB24M1	Universal Control Box, 100V-240V Multi Input, 1 Zone

\*Both switches available in stainless steel and white

A single duplex switch allows you to control both elements of your dual-element heater and optimize the heat that it emits. If you have two heaters installed, a dual duplex will help you control both of the heaters and their elements separately. They are ideal in indoor settings or protected outdoor areas.

EFSWWPS

EFDWWPW

\*Both switches available in stainless steel and white

Our single and dual duplex switches are available with weatherproof outdoor covers, allowing you to control your heaters, and keep your switches clean and safe from the outdoor environment. This convenient addition is suitable for recessed applications to accommodate your desired outdoor aesthetic and functional requirements.

Inspired by Eurofase's Admiral's metal rivet accents & filigreed metal design

Detailed metal rivet accents & filigreed metal design completes the aesthetics of the Admiral

## Did you know that some of the Innova heater décor plate designs are inspired by Eurofase's lighting fixtures?

For smooth integration and a harmonious design of your space, combine our lighting and heater lines to stay warm and toasty outside, while staying in style.

## Admiral

LED bands of integrated light beam through intricate filigreed metalwork that acts as a unique way to diffuse light. An inviting warmth radiates from this successful collection, spawning a further expansion of this family with outdoor pieces. Matte black, rich brass, and decorative gold rivets are paired beautifully in contrast with the dark perforated lens.
