Compatible Controls
for AC Ceiling Fans

A method of control.

Our ceiling fans come with either a pull chain, wall, or handheld remote so you can change the ceiling fan's speed easily. Some of our fan controls are equipped with a dimmer and also allow you to change the direction of the fan blades to adjust for seasonal changes. Even though your ceiling fan comes with a control, there might be times when you would prefer a handheld remote over a wall control or vice versa. The below chart allows you to quickly see which control system is included with each ceiling fan model and the compatible control options (transmitter only) available for your ceiling fan, should you prefer the alternate accessory.

Fan Family	Model #	Included Control		Optional Control	
Cavelli	300040SBK		*Limited Function* Wall Control System		337214TR *Limited Function* CoolTouch™ Handheld Transmitter
	300040SNB
