INSTALLATION:

NOTICE: Purchase the 3 way bulb to have 3-way switch control:
Off - 50 Watts - 100 Watts - 150 Watts

1. Remove the back plate from the fixture by unscrewing cap nuts and star washers.
2. Position the back plate on the wall and determine screw locations; insert wood screws (one on each side) into wooden studs or plastic wall anchors and wood screws into drywall. Mount pre-assembled back plate to wall using key slots on the back plate. Tighten the wood screws against the back plate.
3. Reattach the fixture to the back plate with the star washers and cap nuts.
4. Remove spinner nut from socket. Position the ring and shade on lamp and secure with spinner nut.
5. Install proper bulb type and wattage (not included).
6. Position the wire casing in desired location and determine screw locations; insert wood screws (one on each side) into wooden studs or plastic wall anchors and wood screws into drywall. Mount the wire casing to wall using key slots on the back plate. Tighten the wood screws against the wire casing.
7. Place the cord into the wire casing and push the cover into the wire casing.
