

PRODUCT DESCRIPTION

A modern matte black frame crafted with rectilinear tubing supports circular LED light modules. Designed to appear as if they are facing each other in an embrace, the modules create a harmonious and dynamic aesthetic. The two modules, positioned at opposite ends, cast evenly distributed light and seamlessly rotate to direct illumination precisely where it's needed. Two versatile surface-mount fixtures are suitable for wall or ceiling installation, as well as two portable lamp options. The portable designs feature a tabletop lamp and a larger-profile floor lamp, both equipped with an integrated touch switch for easy operation and dimming control.

FINISHES OPTION

 Black (BK)

MATERIAL

Steel, PC
