

SOLAR

# Solar Bollard, Wall, & Spotlight

NEW

A collection of three solar lamps in die-cast aluminum, powder-coated in dark gray with polycarbonate diffusers. The solar powered lamps are equipped with a solar panel that charges the battery and have a high IP rating (IP54 for the wall lamp and bollard; IP65 for the adjustable spotlight). The Solar Bollard has two sensors for dusk and motion. The dusk sensor activates the lamp when ambient lighting is less than 150 Lux. The motion sensor switches the lamp to full power when movement is detected for 1 minute then returns the light intensity to 10%. The motion sensor can be disabled, in which case the lamp always emits 50% of the luminous flux.

BOLLARD / WALL / SPOTLIGHT

# Solar Bollard

LED 2.2W • 327lm • Beam Angle 68° • 1-CCT (3000K) • CRI>80 • DC 3.7V • IP54 Rated

Battery charge: 6-8 hours of direct sunlight

Full light 100% 5/6 H. 50% 9-10 H. Microlight 30% 14-18 H.

Dusk sensor that activates the lamp in "energy saving" mode (30 lm, 0.33 W)

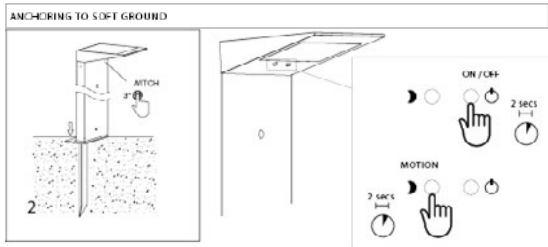

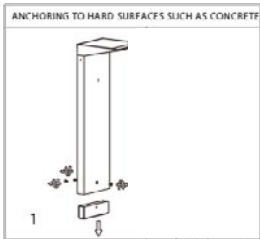

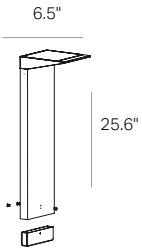

Motion sensor that activates the full power mode when movement is detected (the light returns to energy saving mode after 60")

Die-cast aluminum with polycarbonate diffuser

Lamp can be fixed to either hard or soft ground with included aluminum stake

Dark Gray

# Solar Wall

LED 2.2W • 327lm • Beam Angle 107° • 1-CCT (3000K) • CRI>80 • DC 3.7V • IP54 Rated

Replaceable Solar powered battery

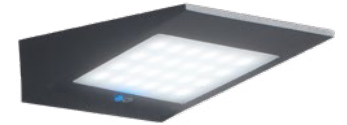

Full light 100% 5/6 H. Microlight 30% 14-18 H.

Dusk sensor that activates the lamp in "energy saving" mode (30 lm, 0.33 W)

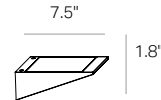

Motion sensor that activates the full power mode when movement is detected (the light returns to energy saving mode after 60 seconds)

Die-cast aluminum, painted in dark grey, with polycarbonate diffuser

Battery charge: 6-8 hours of direct sunlight

**LD0400G3**  
Dark Gray

# Solar Spot Light

LED 1.3W • 102lm • Beam Angle 28° • 1-CCT (3000K) • CRI>80 • DC 3.7V • IP65 Rated

Replaceable solar powered battery

Full light 100% 7 H.

Dusk sensor that activates the lamp in "energy saving" mode (30 lm, 0.33 W)

Die-cast aluminum, painted in dark grey, with polycarbonate diffuser

Battery charge: 6-8 hours of direct sunlight

Ground stake included
